### The Weather.

FOR KENTUCKY—Increasing  
cloudiness and warmer Tuesday.

A local option election will take  
place today in Pulaski county, closing a very bitter fight.

Arthur Y. Ford, vice president of  
the Columbia Trust Company, Louisville, is slowly recovering from a critical illness.

Attorney General James Breathitt  
has delivered an opinion, holding that the Burley Tobacco Society has no right, under the law, to form an insurance company. He says that such would be a combine of a commercial corporation with an insurance company, which is in direct violation of the statutes of Kentucky.

A gun is being designed by ordinance experts in the army for the purpose of shooting dirigible balloons and aeroplanes. Gen. Crozier, Chief of Ordnance, in his annual report to the Secretary of War, outlined some of the difficulties which the gun must overcome. "Dirigible balloons and aeroplanes move rapidly, change directions quickly, alter their elevations at will and are removed from any objects that assist aiming," points out the Ordnance chief. For short ranges Gen. Carter says that it is probable that the fire of small arms, rifles or of machine guns against the men aboard airships will prove most effective.

The famous "night rider" case of Newt Hazlett's widow against Walker Duncan, is on trial at Frankfort and special Judge S. M. Wilson has overruled a motion of the plaintiff to give the jury peremptory instructions in their favor in the \$25,000 damage suit of Mrs. Hazlett against Walker Duncan, Hubert Kessler and Riley Harrod. Judge Wilson announced that the case was one for the jury to decide, and directed the defendants to proceed with their evidence. Duncan was attacked while guarding his property late at night and in the fight that followed Hazlett was shot from his horse, in Shelby county.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has shown Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ## Points About People.

STANLEY—Congressman A. O. Stanley lived in this city when a boy and it was his custom during the harvest season to go into the country and work as a day laborer in the harvest fields. On one occasion he went to E. D. Jones, known as Wild Cat Ed Jones, and contracted with him to work in his wheat harvest. He had not been at work very long when the boy went to Mr. Jones and told him that he was suffering with an aching tooth and would have to quit. Mr. Jones with his characteristic shortness of speech, said:

"Here, boy, take this dollar and go and get it pulled," handing him a dollar. Stanley went to the nearest doctor and soon returned with a bloody cavity in his jawbone and telling Mr. Jones he felt better went back to his work. Mr. Jones says he made a good lawyer and is now making such a good Congressman that nobody can beat him. There is no more enthusiastic Stanley man in the district than Mr. Jones. He says Stanley still owes him the dollar, but the pleasure of voting for him has paid him back three times already, and he intends to vote for him again.

BASSETT—Dr. Frank H. Bassett, of Nashville, who is one of the Past Exalted Rulers of Hopkinsville lodge B. P. O. E. attended the memorial services Sunday. Before settling down to practice, however, he may take a post graduate course in one of the European colleges.

Mr. Nuckols is a native of Christian county, having been born and reared in the vicinity of Gracey. He is one of the Pennyrile boys who has gone to the metropolis and made good.

GREEN—Mr. Geo. V. Green and his interesting family have decided upon a location in the South. They will leave Hopkinsville about Dec. 15th to take up their residence in the pretty little city of Thomasville, Ga., near the Gulf coast. They will remain there until Mr. Green perfects his future business arrangements.

### Extracting Teeth Without Pain.

Aching, loose, diseased or broken teeth should be removed. Many times their presence is a menace to health. Many people are continually taking medicine for dyspepsia and kindred ills, when in reality the cause of all the trouble is decayed and broken down teeth, and when these are extracted by our painless process, the cause of the dyspepsia and other troubles disappear.

### Tobacco News.

At Bohmer's loose leaf warehouse Paducah, Saturday, 20,000 pounds of tobacco were offered and sold and the highest price was the record for loose leaf tobacco of the season. The high price was \$10.10 and the lowest \$4.20. The heaviest buyers were the American Snuff Company, T. J. Stahl and Smith & Scott, all of that city.

Tobacco continues to roll into the city from all over Christian and adjoining counties. The four loose floor warehouses had good sales Saturday, with rising prices. The factories are receiving thousands of pounds daily bought privately. The tobacco business in all of its branches is exceedingly active and the rising prices have enabled all of the local buyers who bought early in the season to realize handsome profits.
